Joe Gallenberger here filming "Superpowers"

Note from Joe: "The film crew left about 8 pm, long day, and very professional. They took a lot of footage of the Institute. Post-production starts in August with planned release date of Winter 2021.
Special thanks to Amenie who served a wonderful and well-appreciated lunch. She showed them that we are a class act!
Was great to see everyone and be reminded what a special place Monroe is."

Some of you are asking what we are doing. There is a 9 episode series project that is called *Superpowers* that wants to interview me for three episodes including the first episode on the topics such as Psychokinesis, Energy Healing and Manifestation. I suggested that they film at Monroe so we can show Monroe as a leader in the field of expanded consciousness and consciousness exploration and weave that into my interviews. They are really excited to come up.
Here is a promo video that they did

Conscious Presence Virtual Retreat Launched Today

Background: I sent Beth and Steve a note wishing them a good launch and that I would be sending them good "juju." These are their notes back.

Beth Vaughan: "Thank you so much! The more Good Juju the better!
I am so excited to launch the CPVR! We will do our very best. I love this program and know it is perfect program for the VR format! I do hope this is a first of many successful programs on this platform.
Have a great weekend!
Again Thank you!"

Steve Winchester: "Beth and I have been working hard on this. Hats off to Allyn Evans for her Zoom help. Tip and Ellen Jones-Walker for their detailed documents to help with logistics. Of course all of you at the office.
Together we can make this work. It took a plague to show Monroe where the extra income will come from. That is sad but here we are. Welcome to the age of Aquarius. From all of this can grow other projects like two day programs and a program formatted through an app. Check out Synctuition. I'm at the second level as a research project and we could crush what they are doing.
Miss being at Monroe and I miss all of you!
Thanks for the juju🙏"

Gateway Virtual Retreat Launched Today

Background: I sent Tip and Ellen the same notes.
Ellen & Tip: " Many thanks for your patterning and good juju. We very much appreciate your support in this new venture. We are eager to start the retreat tomorrow!" 😊

Opening Monroe to Residential Programs
Governor Northam's decision to talk about what Phase 3 would look like just muddied the waters. Board is all over the "board." We'll be sorting that out this next week. More updates as I know them.

That's it.
Happy Father's day on Sunday.
Scott
